

PaperstrawTech is aiming to provide a series of paper straws manufacturing solutions for entrepreneurs who want to build their own profitable production facility for supply of paper straws. When we launched our high standard paper straws manufacturing factory in Zhangzhou, China, 2018, we encounter many difficulties when first established our factory. Some of the questions we asked ourselves:

How do I equip my factory to build with the required facilities needed?
From what sources can I buy the quality workable equipment that are within my budget?
How do I maintain the equipment?
How can I get the raw materials for producing paper straws and all the accessories needed?

Just to name but a few! We are currently building and completing a modern, sanitary and world class paper straws manufacturing facility in Zhangzhou, Fujian, with a building area of 4,000 square meters. From, human and technical resources, machines, equipment, raw materials, suppliers, factory production system, office managements, products qualifications, certifications, sales and marketing, we are coordinating every aspect with a wealth of accumulated experience. Our vision and goal is to build a world class paper straws manufacturing factory and produce the best quality paper straws in China.

PaperstrawTech Department was established shortly after our foundering manufacturing company (RainbowBear Paper Crafts Co., Ltd) of paper straws in Zhangzhou, We are not only delivering top quality paper straws to our customers, we want to deliver our knowledge, experience, techniques, resolutions, equipment, facilities, raw materials and accessories to ambitious entrepreneurs who are like us looking to build an eco-friendly paper straws manufacturing factory.

Together we will popularize the biodegradable paper straws worldwide, and build a sustainable living environment for everyone and everything on our planet.

01 COMPANY PROFILE

ABOUT US

We started selling paper straws worldwide 6 years ago as a trading company. With an increasing number of countries, communities, industries & businesses starting to ban plastic drinking straws and with more and more people becoming aware of the serious dangers plastic straws causing to our planet and our oceans. People are naturally turning to biodegradable paper straws to replace the harmful plastic straws. There is a massive up surge in demand for paper straws and paper straws manufacturing machinery in 2018. At this time we feel there is a massive opportunity and it is time for us to establish our own paper straws manufacturing business to ensure the sustainability of supplying paper straws to clients and to meet the international markets high demands.

Zhangzhou RainbowBear Paper Crafts Co., Ltd was therefore founded in June, 2018, with a building area of 4,000 square meters. Our vision and goal is to build a world class paper straws manufacturing factory and produce the best quality paper straws in China. We are not only delivering top quality paper straws to our customers, we also want to deliver our knowledge, experience, techniques, resolutions, equipment, facilities, raw materials and accessories to entrepreneurs who are like us looking to build an eco-friendly paper straws manufacturing factory.

The business was born from a positive and proactive drive that we do believe this is a business that will contribute to the protection of our planet and ocean lives from detriments of plastic straws. This is an aspiring business that enables us to play a role in protecting and creating a sustainable living environment for everyone and everything on our planet.

Together we will popularize the biodegradable paper straws worldwide, and build a sustainable living environment for everyone and everything on our planet.
